SUMMARY

Senior Data Analyst with 4+ years of experience transforming complex financial datasets into high-value business insights. Expert in architecting scalable data pipelines and executing **Python/SQL** automation strategies that reduce operational overhead by **60%**. Proven track record of managing **₹50 Crore portfolios** and driving **$50,000+ in revenue growth** through predictive modeling and dashboard optimization. Adept at bridging the gap between technical data engineering and executive decision-making.

EDUCATION

Vellore Institute of Technology - Chennai, India

Bachelor of Engineering in Civil Engineering   Jun 2017 - Jun 2021
- GPA: 7.65 / 10.0

SKILLS

- **Tools & Technologies:** Power BI, Tableau, Google Analytics, Looker Studio, SQL, Python (Pandas, NumPy), MS Excel (Pivot Tables, VLOOKUP), Snowflake, API, Shopify, WooCommerce.
- **Technical Skills:** ETL & Data Cleaning, Statistical Analysis, A/B Testing, KPI Development, Budgeting & Forecasting, Predictive Modeling, Database Management, Data Warehousing, Data Modeling, Root Cause Analysis (RCA), Financial Modeling, Data Governance, CRM Analytics.
- **Design & Engineering Tools:** Figma, Adobe Creative Suite, Ansys, SolidWorks, Blender 3D, SketchUp, AutoCAD.
- **Productivity Tools:** ChatGPT, Lovable, Notion AI, GitHub Copilot.
- **Soft Skills:** Project Management, Business Acumen, Data Storytelling, Stakeholder Communication, Critical Thinking, Problem-Solving, Attention to Detail, Time Management.

EXPERIENCE

Senior Data Analyst

LLUBRAEB | Hyderabad, India | Remote   Nov 2024 - Present
- **Spearheaded the quantitative data strategy** for a **₹50 Crore AUM** portfolio, designing **Python-based** valuation scripts to automate asset tracking and outperform market benchmarks by **15%**.
- **Optimized data retrieval workflows** utilizing **SQL** and **cloud storage**, creating a unified view of **350+ client portfolios** that reduced manual reporting overhead by **60%**.
- **Designed the firm's central Executive Dashboard** in **Power BI**, delivering real-time visibility into **Net Revenue** and **CAC** to drive quarterly budget allocation decisions.
- **Established enterprise-grade data governance protocols** for tax and equity reporting, ensuring **100% regulatory compliance** and eliminating manual reconciliation errors.
- **Led a cross-functional analytics unit**, mentoring junior analysts on **financial modeling** best practices to accelerate report delivery velocity by **40%**.

Senior Data Analyst

Home LLC | California, United States | Remote   Sep 2023 - Nov 2024

- **Executed the migration of 100+ Mode reports** using **Python**, **SQL**, **Snowflake**, and **AWS**, directly capturing **$50,000 in net revenue** through infrastructure modernization.
- **Synthesized complex datasets** via advanced **SQL** and database management protocols, elevating data accuracy by **20%** to steer key investment strategies.
- **Developed 100+ data visualizations and interactive dashboards** in **Power BI**, driving a **25% increase in stakeholder engagement** and amplifying housing market insights across digital platforms.
- **Directed mentorship programs** for junior analysts, establishing best practices that optimized task efficiency by **40%** and streamlined recruitment workflows.

Data Analyst

BusinessOnBot | Bengaluru, India | On-site   Jul 2022 - Aug 2023

- **Streamlined onboarding workflows** utilizing **SQL** trend analysis to capture a **100% client adoption rate** across the portfolio.
- **Engineered 200+ BI dashboards** using **Power BI**, **Tableau**, and **Looker Studio**, synthesizing **Google Analytics** data to benchmark strategic KPIs.
- **Enforced 100% regulatory compliance** for **Direct-to-Consumer (D2C)** brands by implementing advanced **data modeling** frameworks for audit verification.
- **Slashed support latency by 20%** and maximized issue resolution to **90%** by deploying data-driven support algorithms within **CRM systems**.

Business Analyst

XL Dynamics | Bengaluru, India | Remote   Dec 2021 - Jul 2022

- **Architected automated ETL pipelines** using **SQL** and **Excel**, eliminating bottlenecks in loan validation to cut manual extraction overhead by **30%**.
- **Mitigated 90% of financial risk exposure** by executing rigorous **statistical analysis** on loan applications to generate strategic containment reports.
- **Accelerated executive decision-making by 95%** via the design of high-velocity **KPI dashboards** in **Power BI**, delivering real-time operational visibility.
- **Fortified loan portfolio integrity** by deploying **predictive risk models** and **descriptive statistics**, driving down potential default risks by **40%**.

CERTIFICATIONS

Google Data Analytics, Google   Nov 2025

AWARDS

Best Business Presentation, FSAE Australia   Feb 2018

- Awarded for designing and delivering the top-ranked sales presentation to potential investors for the Formula Student project.

PROJECTS

DIY Mortgage Website (US Home Data)   Nov 2024

- **Constructed** a real-time mortgage calculator by integrating live housing feeds, scaling platform traffic to **500+ monthly users**.
- **Simplified** complex financial scenarios through dynamic dashboards, cutting manual calculation overhead by **50%**.

- **Derived** actionable market insights from US mortgage datasets, improving user decision-making efficiency by **35%**.

Option Chain Analysis   Aug 2022

- **Coded** a Python-based analyzer for **1,000+ daily contracts**, identifying high-value setups that increased profitability by **15%**.
- **Cataloged 200+ trades** via a custom Excel audit system, boosting execution accuracy by **25%** and overall returns by **10%**.
- **Applied** statistical forecasting models to predict **Derivatives (Options) price trends**, improving prediction accuracy by **15%**

VOLUNTEERING & LEADERSHIP

Formula 1 - Student Team Manager - Vellore Institute of Technology   Jun 2017 - Jun 2021

- **Orchestrated** a 50-person engineering division for the end-to-end design and manufacturing of a Formula Student race car.
- **Oversaw** treasury and logistical operations, harmonizing social media strategies to ensure **100% operational efficiency**.
- **Secured** a **50% increase in project funding** by presenting strategic investment pitches to corporate sponsors.

Website Developer & Multimedia   Jun 2017 - Jun 2021

- **Launched** high-converting e-commerce architectures for **15+ clients** utilizing Shopify and WooCommerce platforms.
- **Curated** bespoke branding assets (logos, brochures) for **50+ accounts** using Adobe Creative Suite (Photoshop, Illustrator).
- **Produced** commercial video content for **30+ clients**, achieving a **90% satisfaction rate** through advanced post-production.
